EDUCATION

The University of Texas at Austin

Bachelor of Science, Statistics and Data Science

Austin, TX

May 2028

TECHNICAL SKILLS

Languages & Frameworks: Python, Java, JavaScript, TypeScript, React, Node.js, Next.js, TensorFlow, Scikit-Learn

Tools & Databases: Git, Docker, Linux, Vercel, Jira, CI/CD, AWS S3, Cloudflare, MongoDB, Supabase, Firestore

EXPERIENCE

Machine Learning Extern

Oct 2024 – Jul 2025

The PGA of America

Dallas, TX

- Shipped 12 reproducible Python ML labs with CI/CD and telemetry, onboarding 500+ learners in 9 months
- Accelerated 14 engineers by 3 weeks via code reviews, Docker builds, and agentic tooling documentation

Undergraduate Researcher

Nov 2025 – Present

UT Center for Computational Biology and Bioinformatics

Austin, TX

- Reduced data errors 40% through automated Python/R ETL pipelines with validation and Git versioning
- Cut HPC compute time 60% by containerizing workflows with Docker, Git, and Jupyter on TACC clusters

Chief Technology Officer

Aug 2023 – Aug 2025

Krowe Technologies

Dallas, TX

- Scaled agentic AI platform to 23 SMBs and 100 founders using React/Next.js with OpenAI agent workflows
- Shipped weekly Kairos releases deploying FastAPI agentic services on AWS/Firestore with evals/monitoring

Software Engineer Intern

Dec 2023 – Jul 2024

Nixar Solutions

Allen, TX

- Generated 5-figure revenue engineering Next.js lead pipelines with external APIs and Docker CI/CD tests
- Improved conversion 18% through A/B testing, event instrumentation, and analytics dashboard tracking

PROJECTS

Campus Connect AI | *React, Python, Agentic AI, Semantic Search, CI/CD*

July 2025

- Deployed agentic search platform for 1,000 students achieving 92% relevance with CI/CD and test evals
- Reduced query latency 55% through vector indexing, caching optimization, and database query tuning

Cybernetic Responsive Utility System | *Python, ML, HCI*

May 2025

- Built multimodal interface with voice/gesture ML inference achieving 85ms latency for real-time demos
- Trained 200 students on Git and Python deployment via workshops, boosting delivery speed by 37%

Syntra | *React Native, Node.js, Express, MongoDB, HealthKit, Sahha SDK*

Dec 2025

- Integrated HealthKit via Sahha SDK powering readiness insights, processing 10K+ daily data points
- Engineered Node.js/MongoDB backend handling 500 concurrent users with 99.8% uptime and monitoring

LEADERSHIP & CAMPUS INVOLVEMENT

Software Engineer/Developer

Jul 2025 – Present

Texas Convergent

Austin, TX

- Developing wearable tracker analyzing biometrics producing recovery recs using Python and TypeScript
- Architected data schemas, REST APIs, and frontend components for MVPs supporting 50+ beta testers

1st Place

Nov 2025

T-Mobile Escape McCombs Hackathon

Austin, TX

- Won 1st of 150 teams engineering ML pipeline with vectorized NumPy solvers and Keras model baselines

Machine Learning/Software Developer

Jul 2025 – Present

Business Analytics Association

Austin, TX

- Teaching 140 members ML fundamentals via Python workshops covering regression, trees, and evaluation
- Building React/Vite/Supabase member portal tracking engagement metrics across 8 monthly club events
